

DIEGO COSTA

Senior Shopify Developer | CRO & Performance Specialist

diegocosta3542@gmail.com | +55 61 98173-7725 | Curitiba, Brazil

PROFILE

Senior Shopify Developer with over 8 years of experience building and scaling ecommerce stores across freelance, agency and in house environments in Brazil, the UK and the US. Specialized in custom Liquid theme development, app integrations and conversion rate optimization, with a track record of improving site performance, checkout experience, and revenue driving features for growing DTC brands. Comfortable owning projects end to end from architecture and third-party integrations to A/B testing and post launch optimization while collaborating closely with marketing, design and growth teams.

PROFESSIONAL EXPERIENCE

Shopify Developer

March 2018 – July 2019

Upwork | Freelance / Remote

- Delivered Shopify development projects for international clients, logging 148 billed hours across a total contract value of \$6,200.
- Maintained a 98% Job Success Score by consistently meeting deadlines, scope and quality expectations.
- Handled theme customization, bug fixes and small feature builds for independent merchants, establishing the foundation for a full-time career in Shopify development.

Shopify Developer

April 2020 – July 2022

Amoni | Brazil

- Built and customized Shopify themes using Liquid, HTML, CSS and JavaScript to align store design with brand and conversion goals.
- Developed custom storefront features, including product filtering, size guides and bundle logic, tailored to merchant requirements.
- Integrated third-party apps (reviews, shipping, and marketing tools) to extend store functionality and streamline operations.
- Diagnosed and resolved cross-browser and cross device compatibility issues to maintain a stable, consistent shopping experience.
- Partnered with design and marketing teams to translate campaign and landing page requirements into functional Shopify sections.

Senior Shopify Developer

September 2022 – February 2024

Blubolt | United Kingdom

- Led custom theme development and section-based builds for multiple UK and EU ecommerce clients on Shopify and Shopify Plus.
- Designed and implemented A/B testing setups to validate UX and merchandising changes, supporting data driven decision making for clients.
- Built and maintained custom Shopify apps and storefront integrations using JavaScript and the Shopify API to extend platform functionality.
- Improved checkout and post-purchase experience through custom scripts and app integrations, contributing to measurable conversion gains.
- Mentored junior developers on Liquid best practices, code review standards and Shopify Plus architecture.

Senior Shopify Developer

May 2024 – April 2026

Mejix | United States

- Owned end-to-end development of custom Shopify themes and apps for US-based DTC brands, using Liquid, React and TypeScript.
- Implemented and analyzed A/B tests with tools such as Google Analytics, GTM and dedicated CRO platforms to drive sustained conversion improvements.
- Optimized site performance, Core Web Vitals, and SEO fundamentals to improve organic visibility and page speed across client stores.
- Built custom Shopify Functions and app integrations (subscriptions, loyalty, personalization) to support merchant growth initiatives.
- Conducted QA and cross browser testing to ensure reliability across devices ahead of major launches and campaigns.

PROJECTS

Urban Thread Co.

08/2018 – 02/2020

- Built a custom mega-menu and cart drawer from scratch, including cart gamification and upsell features.
- Identified and resolved recurring bugs, improving overall site stability and performance.
- Designed and ran A/B tests on key site elements to optimize user behavior and engagement.
- Developed custom Liquid functions tailored to specific merchandising and promotional needs.

Lumen Skincare

05/2022 – 03/2023

- Developed a fully custom Shopify theme from the ground up, elevating visual design and user experience.
- Integrated apps such as Klaviyo and Judge.me to extend marketing and review functionality.
- Implemented Section Rendering API to streamline content updates and reduce developer dependency for merchandising changes.

Atlas Performance Gear

07/2024 – 01/2026

- Led a full theme customization aligning the brand experience across desktop and mobile.
- Built a custom color-swap feature on the PDP using the Section Rendering API for seamless, reload-free updates.
- Integrated Klarna and Klaviyo to support flexible payments and lifecycle marketing.
- Ran structured A/B tests to identify the highest-converting design and feature variations.
- Used Google Tag Manager to centralize analytics tracking and improve visibility into user behavior.
